OECD. Paperback. Book Condition: New. Paperback. 212 pages. Dimensions: 10.9in. x 8.3in. x 0.5in. Every person aspires to a good life. But what does a good or a better life mean? The second edition of *Hows Life?* provides an update on the most important aspects that shape people's lives and well-being: income, jobs, housing, health, work-life balance, education, social connections, civic engagement and governance, environment, personal security and subjective well-being. It paints a comprehensive picture of well-being in OECD countries and other major economies, by looking at people's material living conditions and quality of life across the population. Through a wide range of comparable well-being indicators, the report shows that countries perform differently in the various dimensions of well-being. For instance, low-income countries in the OECD area tend to do very well in subjective well-being and work-life balance, while their level of material well-being is much lower than that of other OECD countries. The report responds to the needs of citizens for better information on well-being and the needs of policy makers to give a more accurate picture of societal progress. In addition, the report contains in-depth studies of four key cross-cutting issues in well-being that are particularly relevant. First, this report analyses how well-being has changed during the global economic and financial crisis. Even though some effects of the crisis may become visible only in the long-term, the report finds that the Great Recession has large implications for both economic and non-economic well-being of households. Secondly, the report looks at gender differences in well-being, showing that the traditional gender gap in favour of men has reduced but has not disappeared. It also finds that women and men do well in different areas of well-being and that they are increasingly sharing tasks and roles. Third, it looks at the quality of...
