

## Modern Chess Planning (Paperback)

By Efstratios Grivas

Gambit Publications Ltd, United Kingdom, 2007. Paperback. Condition: New. Language: English . Brand New Book. Good planning is central to good chess. A plan gives meaning to maneuvers and tactical devices, forming a coherent whole that brings us closer to our goals. The modern understanding of chess planning has evolved considerably since the days of the grand plan, whereby a player might even try to map out the whole course of the game. Nowadays, top-class players appreciate that the opponent's ideas also deserve respect, and our own plans must take them into account too. Modern grandmasters plan with great purpose but also flexibly, ready to adjust or even change direction completely when the situation demands it. Grivas provides 75 superb practical examples where it is important to make the right plan. Once the critical position is reached, he guides you through the options and challenges you to find the right path. Detailed solutions are provided, with a full discussion of the pros and cons of the various options.
