

The Encyclopedia of Vampires and Werewolves (Hardback)

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Chelsea House Publishers, United States, 2011. Hardback. Condition: New. Second Edition. Language: English . Brand New Book. Vampires and werewolves are often portrayed as existing alongside humans in modern fiction and film. While some use their beauty and allure to form dramatic relationships with human beings, others are untrustworthy monsters determined to prey on ordinary men and women. These shapeshifters and undead beings fascinate us because they embody the dark side of human nature and reflect some of humanity s most primal fears. All of these strange creatures of the night have their roots in stories that have existed for centuries in folklore and mythology. The Encyclopedia of Vampires and Werewolves, Second Edition provides more than 500 entries exploring the supernatural aspects of these creatures and their pop culture counterparts. Entries describe supposed true historical accounts, how vampires and werewolves come into existence, beliefs about vampires and werewolves, and real-life creatures and cases that may have inspired their legends. The most popular fictional vampires from a range of media are discussed, along with the people who helped create them.
