Excerpt: . . . to be deficient in a safety evaluation area if it receives a value of 75 or higher in that particular safety evaluation area. Although a carrier may receive a value in any of the four safety evaluation areas, the carrier receives a SafeStat score only if it is deficient in one or more safety evaluation areas. Carriers that are deficient in two or more safety evaluation areas and have a SafeStat score of 225 or more are considered to pose high crash risks and are placed in category A or B. (See table 1.) Carriers that are deficient in two safety evaluation areas but have a SafeStat score of less than 225 are placed in category C and receive a medium priority for compliance reviews. Carriers that are deficient in only one of the safety evaluation areas are placed in category D, E, F, or G. Carriers that are not deficient in any of the safety evaluation areas do not receive a SafeStat score and are placed in category H. Table...
