GERMANY AND EUROPE (CLASSIC REPRINT)

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 150 pages. Dimensions: 9.0in. x 6.0in. x 0.3in. Excerpt from Germany and Europe This little book is the result of a serious effort to understand the causes and the issues of a war in which, whatever we may feel about it, every man, woman and child of us is engaged. It materialised, first, in the form of public lectures given at Bedford College, last October. An honest attempt has been made to state a case for Germany. The effort to do so is a necessary part of any effort to understand what is happening. In this as in all other controversies, a right statement of the adversary's case is the beginning of, understanding. Until that is done we have not even put the question and all discussion is irrelevant. If it seems to the author that, at the bar of reason and of justice, Germany has no case, that may be due to his bias or to his general incompetence: it is not due to neglect. Before all things it is necessary that we should know and feel that our cause is just. I have tried, in this book, to show that it is. That question settled, it is a matter of relatively very small importance to us or to our children how and why, exactly, this war began. It behoves us, now, first of all to do all we can to secure victory for the Allies and secondly to look forward to an end.
